ABOUT ME

Electrical Engineering undergraduate and aspiring software developer with hands-on experience building full-stack and AI-powered applications using Python, JavaScript, React, FastAPI, and REST APIs. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and computer networking, with additional exposure to SAP ABAP Cloud through an industry internship. Eager to contribute to real-world software projects and grow as a developer.

EDUCATION

Degree/Certificate	Institute/Board	Year
B.Tech., EE	Odisha University of Technology and Research (70%)	2023-2027
Senior Secondary	Gouri Shankar Residential School (CBSE) (84%)	2019-2021
Secondary	St Mary's School (ICSE) (92.6%)	2019

TECHNICAL SKILLS

- Data Structures & Algorithms
- Python
- OOP
- React
- FastAPI
- REST API
- Gemini AI/LLM
- Networking (TCP/IP)
- ABAP Cloud
- SAP S/4HANA

INTERNSHIP

SAP ABAP Cloud Developer Intern May 2026 – June 2026

- Worked on SAP ABAP Cloud development with exposure to SAP S/4HANA architecture, cloud-based programming concepts, and Clean Core principles.

Hindustan Aeronautics Limited (HAL), Koraput – Intern June 2025 – July 2025

- Analyzed industrial power distribution systems, electrical protection schemes, and reliability practices in large-scale environments.

PROJECTS

AI Resume Analyzer React, FastAPI, Google Gemini AI, PyMuPDF [Live Demo](#)

- Built an AI resume analyzer using Gemini to compare resumes with job descriptions and generate ATS scores.
- Implemented PyMuPDF-based text extraction to parse resume PDFs into structured content for automated analysis.
- Designed a FastAPI backend integrated with a React frontend to deliver real-time scoring and improvement suggestions.

Network Device Health Monitoring & Automation Tool Python

- Built a Python SSH tool to monitor Cisco devices and generate automated CSV health reports.
- Automated periodic health checks across multiple network devices, reducing manual monitoring effort.
- Implemented logging and threshold-based alerts to flag devices with abnormal CPU or memory utilization.

AI Chatbot HTML, CSS, JavaScript, Gemini AI, LocalStorage [Live Demo](#)

- Built a serverless Gemini chatbot with multi-session memory and context-aware responses.
- Used browser LocalStorage to persist conversation history across sessions without a backend database.
- Designed a responsive, lightweight UI with HTML, CSS, and JavaScript for smooth client-side interaction.

CERTIFICATIONS

- SAP:** SAP Certified Back-End Developer – ABAP Cloud | SAP S/4HANA / SAP ABAP Cloud Training
- CCNA Track (Cisco Networking Academy):** Introduction to Networks | Switching, Routing & Wireless Essentials
- Python:** Python Essentials 1 & 2
- Cloud & AI:** AWS Fundamentals | Introduction to Data Science | Introduction to Modern AI | Apply AI: Analyze Customer Reviews

POSITIONS OF RESPONSIBILITY

- Class Representative, Electrical Engineering, OUTR
- Creative Head, College Photography Club, OUTR

HOBBIES

Photography | Video Editing | Travelling | Content Creation
